THE CLOUDS LIFTING.

Another Day of Comparative Peace at Chicago.

WICKES REFUSES TO ARBITRATE.

He Will Not Meet a Committee of Five Citizens of Chicago—Samuel Gompers to Leave for Chicago—Another Proclamation by the President.

CHICAGO, July 10.—The war cloud which has overhung this city and this land for the past ten days shows distinct signs of lifting. Instead of stories of additional railroads tied up at various points throughout the country today's dispatches almost without exception bring advices of strikers returning to work and an increased resumption of traffic amounting in some places to a return to normal conditions.

Yesterday in Chicago passed without a serious conflict between the rioters and armed forces now on duty here. The feature of the day was the action early in the morning, after an all nights session of the federated trades unions of Chicago, in deciding to call out all clases of labor this afternoon at 4 o'clock unless George M. Pullman should have agreed before noon to settle the differences between his company and his striking employes by arbitration or otherwise.

For reasons not known to the public Grand Master Workman Sovereign, of the Knights of Labor, and his advisers subsequently decided to postpone the general walkout and paralytic stroke which they proposed to inflict upon the business of Chicago until 7 o'clock tomorrow morning.

Last evening, however, the announcement was made that President Samuel Gompers, of the American Federation of Labor, had called a meeting of the executive committee of that organization to be held in this city on Thursday, and that he would leave New York for Chicago this evening. In view of this, it is not believed that the federated trades of Chicago will take precipitate action before consultation with him. As President Gompers cannot reach Chicago before tomorrow night it will be impossible to decide on a line of action to be pursued before Thursday, and probably if it should finally be resolved to declare a general strike of all the combined forces it could not be put into effect before Friday morning. In this connection the interesting question arises whether or no, if President Gompers allows himself to be hauled from New York to Chicago by non-union engineers and firemen, his visit will be of any particular profit. One labor leader in Chicago said today that if he did so he might as well stay in New York.

Another feature to be noted in connection with the meeting of Chicago's federated labor is the fact that there was in the meeting a large and influential conservative element, whose action had practically blocked the plans of the more hot headed leaders until the latter in the excitement consequent upon the reading of President Cleveland's proclamation were enabled to stampede them and carry the strike resolution Therefore, there is reason to believe that even if the order for a general strike finally goes forth many of those to whom it is directed will decline to obey it. So that, with the men already made idle by the effect of the tie up, the walkout will not be nearly so important as anticipated by the leaders.

At 2 o clock yesterday afternoon a joint committee of the city council and of the federated trades unions called on Mr. Wickes, vice president of the Pullman company, and asked him to consent to the appointment of five citizens to determine whether or not the Pullman company has anything to arbitrate The committee as proposed was to consist of two citizens chosen by the Pullman company, two by the circuit court judges and one by these four. Mr. Wickes retired with his attorney, and returning after a brief consultation declared that the company could not receive the proposed committee.

Touching the situation in general, it may be said that in Chicago the roads were all doing better than on any previous day since the strike begun. Passenger trains were moving with more or less regularity and freight has been cared for with good results. At St. Louis, Kansas City and Denver it was reported that railroad business had about returned to normal conditions. Nashville also reported an improvement. About the only points at which the strike managers showed any gain were in the partial walkout of firemen at Fort Scott, Kan., the freight men on the Kanawha and Michigan at Charleston, W. Va, and the strike of the American Railroad union men on the Big Four at Mattoon. It will thus be seen that at the leading railroad centers, the strikers have made perceptible losses, while their gains are at comparatively unimportant points.

Intense excitement was caused yesterday in the stock yards district by the mayor's announcement that no labor meeting would be permitted until matters have quieted down. An immense meeting had been arranged for last night at Columbia hall, Forty-eighth and Paulina streets, and at 8 p. m a crowd had assembled A notice from Mayor Hopkins had been posted on the door, however, stating that in the present state of public excitement it was not deemed advisable to allow such meetings to be held An officer was stationed in front of the hall who warned the crowd away. Similar notices had been placed on all other halls in the district, and notwithstanding there was considerable loud mouthed defiance, no attempt was made to hold a meeting

The Ninth Infantry, U. S. A., Colonel Charles G. Bartlett commanding, arrived in the city at 4:30 o'clock yesterday afternoon from Sacket's Harbor, N. Y. The soldiers were marched to the camp already established on the lake front. The curiosity of a crowd of 2,000 sightseers near the southern end of the camp caused the entire camp to be put under arms and the jeers of a number of drunken men nearly caused serious trouble. Troop K, Seventh cavalry, Captain Hare, was finally directed to make a slow charge through the crowd, driving the spectators, whose numbers had quickly swelled to 5,000, across to the west side of Michigan avenue.

Advices from Fort Smith, Ark., are to the effect that on information filed before United States Judge Parker by the St. Louis and Iron Mountain railway officials warrants have been issued for the arrest of 700 ex-employes of that road upon the charge of conspiracy to interrupt interstate commerce and the carrying of mails.

Reports from the various roads having terminals in Chicago show that passenger trains were being received and sent out on nearly all lines. Sufficient number of freight trains to care for the traffic offered were run. All tracks were, however, heavily patrolled by police and troops.

The coroner's jury empanelled to inquire into the killing of Charles Fleischer by the United States troops at Hammond returned a verdict to the effect that "Charles Fleischer's death was caused by accident, occasioned by soldiers of Company B, Fifteenth Infantry regiment, shooting wantonly and carelessly into a crowd of peaceable citizens."

Four assemblies of the Iron Moulders' union struck yesterday, 2,500 men going out. The Lake Seamen's Benevolent association, with 3,000 members, and the Cigarmaker's union, 4,000 strong, voted last night to strike. None of these bodies have any grievance, but have decided to strike solely because of sympathy with the Pullman boycott.

The yardmen of the Santa Fe system at Dallas, Tex., struck at 11 o'clock yesterday. They went out on the strength of a telegram from Debs, promising all possible assistance Passenger trains are running on time and pulling Pullman sleepers.

The effects of the strike on railroad traffic are clearly perceptible in the official returns of last week's shipments. They fell off from 42,952 tons from the previous week and 45,793 tons for the corresponding week last year to 11,664 tons last week.

At Santa Fe, N. M., Robert Bland and twelve others arrested for interfering with Santa Fe trains at Raton, were arraigned on charges of contempt and obstructing mails Judge Reeder held them in $1,000 bail each on each charge.

The employes of the railroads in Fort Worth held several meetings and finally decided not to go out on Debs' order. As this is the strongest railroad center in the southwest the result is important.

At Little Rock, Ark., the strike situation remains practically unchanged. Passenger trains are running about on time under military protection, but not a car of freight has been moved.

Upon the statement of Mayor Hopkins Governor Altgeld last night ordered out all the remaining regiments of militia in the state

A dispatch from Cincinnati announces that the Big Four firemen from that city to St Louis struck at midnight.

There are today in this city a thousand more federal troops than there were yesterday. These, with the forces already in the field, it is believed, will be able to make a further betterment in the conditions in this city, and the mobilization of troops and marines at San Francisco, and of regulars at other points on the Pacific coast, will suffice, in all probability, to start traffic on the transcontinental lines today.

ANOTHER PROCLAMATION.

It Refers to Disturbances in North Dakota, Washington, Colorado, Etc.

WASHINGTON, July 10.—"The administration will not cease its efforts until the constitutional right of every man to obtain employment, free from intimidation, is thoroughly established. If that should be the outcome of the present struggle it will be well worth the price paid for it, dear as it has been."

This statement by a high official sets out conspicuously the position of the government today. It means a guarantee not only to protect the operation of the mails and to keep open interstate communication, but to protect the right of the individual guaranteed by the constitution of the United States. Every day there has been another step towards the end in view, a tightening of the lines over the lawless, without even a momentary relaxation or backward movement. Saturday it was evidenced in the sweeping orders placing the transcontinental railroads under military control.

Sunday was marked by the addition of reinforcements to General Miles' command, and yesterday it was shown by the draft on the naval forces at Mare Island to supplement the forces with which General Ruger will crush out the opposition to law and order in San Francisco and Oakland and Sacramento. No one can tell what the next move will be, for it depends on the developments of the next twenty-four hours, but it can be stated that the government will not cease until the rebellion against law and order has been quelled, if the entire power of the national government is required to do it.

The president held another conference with his advisers last night. Before the conclusion of the conference the president issued a proclamation substantially like that issued Sunday night, but referring to troubles in North Dakota, Montana, Idaho, Washington Wyoming, Colorado, California, Utah and New Mexico The proclamation names 4 p. m. today as the time before which all mobs must disperse and law abiding citizens return to their abodes.

At about 11 o'clock word came from General Miles that everything was quiet at Chicago and that nothing more would come from him during the night. After receiving the telegram from General Miles the conference broke up. General Schofield stated that no new orders had been sent to General Miles. He said that the situation seemed to be better than at any time since the commencement of the trouble

FERMENT AT SCOTTDALE.

Fatal Fight Between Imported Negro "Scabs" and Police Officers.

SCOTTDALE, Pa., July 10.—Scottdale is the scene of the wildest excitement. A regular pitched battle has been fought between the negro coke workers and the town authorities, and one negro is fatally shot and will die. Yesterday afternoon three negroes came into town from the Painter coke plant. The strikers, on getting sight of them, set up a howl and ran the men almost to their homes, throwing stones and making every kind of threats. When the negroes reached home they raised an excitement among their neighbors at the plant, and forty of them started for the strikers.

Six Hungarians were found near the plant, and were badly beaten, and a rush was then made for Scottdale, the maddened negroes entering town, each armed with clubs and revolvers. A fight was soon raised between the negroes and the police authorities. The colored men became frantic and in a few seconds resolved themselves into a mob and commenced shooting. The officers called upon the citizens for help, and a rush was made for them, when they all took to their heels and ran out of town. They were followed by three or four hundred citizens, who gave them close pursuit in the face of volley after volley of shot from revolvers in the hands of the negroes. When two hundred yards out of town one negro fell, shot in the head, while the others made their escape.

Word has been received from the plant that the negroes are arming themselves with Winchesters and will return to town to rescue their comrade taken in charge by the police. The citizens are in a fever of excitement. The Sons of Veterans' headquarters have been looted of its guns, and every firearm to be found has been brought into requisition.

TERRIFIED BY ANARCHISTS.

Bureau County, Ills., in a State of Siege and Panic.

LADD, Ills., July 10.—The stores were looted at this place yesterday afternoon by a mob of 400 foreign miners. The city is now guarded by fifty deputies The national banks have removed their valuables from the city, and many of the business houses have closed temporarily. Reports from surrounding districts are to the effect that the anarchists of Peru, La Salle and other towns are moving toward Spring Valley for an attack on that place. The town is now guarded by two militia companies and 150 deputies. Home guards are being organized in a dozen different points in this vicinity

Scouts on horseback are out from each town on the public highways watching all means of approach to the various towns. The rioters have cut the telephone and telegraph wires to such an extent that it is difficult to get news throughout the country from mining towns. Between Spring Valley and Ladd and Laceyville not only the wires have been cut, but the polls as well either pulled out or cut down.

An uprising is imminent in Grundy county, and a force of deputy sheriffs have gone to Coal City to quell it At Morris the Grand Army of the Republic and Sons of Veterans have been asked to assist the sheriff. The English speaking miners voted to go to work, but the Italians drove them out of town and threaten to kill them if they go to work.

To Investigate Chinese Smuggling.

WASHINGTON, July 10.—The attention of Secretary Carlisle was called to a statement published in the New York World to the effect that large numbers of Chinamen had been smuggled into this country through the connivance of treasury officials and the railroads. The secretary declined to say anything in regard to the matter further than that the whole subject would be thoroughly investigated, and any officials or employes found guilty of wrong doing would be summarily dismissed and punished to the full extent of the law.

The Fireman Saved the Little One.

SHAMOKIN, Pa., July 10.—While Mrs. Sarah Stopzie and her child were crossing a high trestle along the line of the Lehigh Valley railroad they were overtaken by a passing freight train and seemed in imminent danger of being run down. Charles Barry, the fireman of the train, climbed out over the pilot of the locomotive and pushed the child off the superstructure into the street beneath just as the train reached her. The mother escaped by clinging to a pier The mother and child sustained slight bruises.

The Trouble Over.

A prominent man in town exclaimed the other day: "My wife has been wearing out her life from the effects of Dyspepsia, Liver Complaint and Indigestion. Her case baffled the skill of our best physicians. After using three packages of Bacon's Celery King for the Nerves she is almost entirely well." Keep your blood in a healthy condition by the use of this great vegetable compound. Call at John J. Chambers, 21 West Main Street opp. Runyons grocery, sole agent, and get a trial package free. SHOT BY MILITIAMEN.

A Fatal Volley Fired Over the Heads of Riotous Miners.

THREE INNOCENT PEOPLE KILLED.

Of the Victims One Was an Aged Widow and Another a 17-Year-Old Girl Who Were Standing on Their Own Premises at the Time.

DANVILLE, Ills., July 10.—Mrs. Michael Glennan and Miss Clara James were killed and one unknown man mortally wounded at Westville yesterday by a volley fired over the heads of a crowd of rioting miners by a company of militia. The miners had been rioting in this vicinity ever since Sunday afternoon. During Sunday night a number of freight cars were destroyed in the Eastern Illinois yards by incendiarism. Yesterday a number of cars were derailed at Crape Creek, on the Shelbyville branch. When the wreckage had been cleared the inbound passenger train passed without molestation until Westville was reached. When it stopped there it was surrounded by a crowd of miners and held. Word was telegraphed to Danville and a special train, with a company of the state troops, started at once for the scene of trouble.

About one mile from Westville a large crowd of miners had collected and upon the appearance of the train bearing the militia began war like demonstrations. Several pistol shots were fired at the soldiers, who returned the fire, shooting over the heads of the mob from the train, intending to frighten them. Miss Clara James, the 17-year-old daughter of Jones James, was standing in the doorway of her home A bullet struck her just below her breast and she died almost instantly. Mrs. Michael Glennan, an aged widow, standing in her yard, was also struck and died in five minutes. An unknown man received a mortal wound, and his death is hourly expected. The militia then left the train and charged the crowd, securing three prisoners After this the crowd dispersed, and no further resistance being offered the troops returned to their train, which had been coupled in front of the passenger, and the trip to Danville was made without further delay.

Steamer Sunk, Sixty Lives Lost.

ODESSA, July 10.—The passenger steamer Vladimir, bound from Sebastapol for this port, collision with the Italian steamer Columbia near Eupatoria, a town of Russia on the western coast of the Crimea. The Vladimir was so badly injured that she sunk. Some of the passengers were saved, but it is believed that fully sixty lives were lost. Many of the Vladimir's passengers were killed in their berths when the Columbia crashed into her. A number of others jumped overboard in their fright and were drowned. A large number were injured The Columbia received only slight damage.

DELAWARE CITY, Del., July 10.—The new cruiser Minneapolis left the government quarantine station this morning for Boston On Thursday the vessel will have a preliminary trial trip on the government course off the Massachusetts coast, and on Saturday the official trial trip will take place. READING'S CHURCH WAR.

Another Outbreak Results in a Determination to Suspend Services.

READING, Pa., July 10.—Another outbreak occurred yesterday at St. Mary's Polish Catholic church, Twelfth and Spruce streets, being a repetition of Sunday's disgraceful affair, when the pastor was driven out of the church, and an attempt was made to do him violence in his parsonage.

Yesterday members opposed to the pastor assembled in the vicinity of the church, and later on proceeded to the parsonage, where they began using insulting remarks about Rev. Janauskiewitcz, ringing his door bell and demanding admission. Detective Martz and Joe Kovalski appeared and warned them off, but no attention was paid to this. Finally the party made a rush for the door of the parsonage, but no one succeeded in effecting an entrance, and the crowd became enraged. Kovalski was then seized, and knocked about very roughly before he was rescued by Detective Martz and others from the parsonage. He was badly bruised about the body, and his clothing torn and stained with blood. A call was sent to the police station for aid, and Chief Cullen and eight officers arrived and cleared the street.

Three of the leaders of the mob were arrested, and subsequently officers arrested Father Janauskiewicz on a warrant charging him with choking a parishioner at a funeral. Bail was furnished for a hearing The priest was protected on the way to the magistrate's office by officers and followed by about 200 excited foreigners. Warrants have been issued for twenty of the rioters. The authorities have decided to close up the church, allowing no more services.

Striking Miners Still Determined.

PHILLIPSBURG, Pa., July 10.—Formal notice was yesterday given the sheriff of Clearfield county by the Berwind White Mining company that it will hold the county responsible for any destruction of its property. It also gave notice to its striking miners to remove their tools from the mines. Miners are of the opinion that the notice means that new men are to be brought into these regions. Mass meetings were held near Houtzdale and at Coaldale mine. At both places resolutions were adopted reiterating the intention of the strikers to stand firm.

BORDENTOWN, N. J., July 10.—The case of Charles Hunter, colored, charged with the murder of James Reynolds at the Burlington county almshouse, Pemberton, on July 29, 1893, came up for trial before Judge Garrison at Mount Holly yesterday. The testimony of Dr. Parsons Melcher and Theodore B. Gaskill, steward of the almshouse, showed that Hunter was subject to epileptic fits, and was not responsible for his acts. Judge Garrison thereupon ended the trial by sentencing the accused to the state insane asylum.

No details of his last illness have been received as yet. The president of Nicaragua has decreed that he be buried with military honors.

MORE TARIFF DELAY.

Senate and House Democratic Conferees at Loggerheads.

THE END MAY BE STILL AFAR OFF.

Senators and Representatives Unable to Agree on the Much Amended Measure, and Each Side Sticks to Its Own Views on the Subject.

WASHINGTON, July 10.—The first day of the conference on the tariff between the Democratic conferees of the two houses was without practical result or visible progress, so far as can be learned. The conference continued for six hours, and was uninterrupted even for meals, but when an adjournment was taken after 8 o'clock no item in the bill had been finally passed upon and agreed to.

The day was devoted to a general discussion of the main features of the bill and the principal points of difference between the two houses The conferees on the part of the house of representa pointed out the radical change in policy involved in the senate's departure from the free raw material platform and from the ad valorem system, and asserted that the senate bill was not all that the country demanded in the way of tariff reform. The senate representatives replied in effect that while this might be true and might be admitted by individual members it had proved the most radical bill that could be passed in the senate, and announced a determination to stand for the bill practically as it passed the senate. They asserted that to make any concessions for free raw material might endanger the final passage of the bill. They also contended that material reductions or radical changes from ad valorem to specific duties would delay if not endanger final action.

The house members, while admitting the force of these suggestions, said the action of the house might also prove certain.

The conference committee met again at 10 o'clock today for an all day session. Some of the members desired a night session last night, but Mr. Wilson's physical condition was hardly equal to it.

There had been hope that the committee would make its first report to the house not later than next Friday and possibly by tomorrow on verbal changes, to which all could agree. But yesterday's conference brought out that the differences were too wide to hope for this preliminary report. On the contrary, it was practically determined to keep at work until all was finished, and there is little indication that this can be accomplished this week. It was also practically concluded not to have a meeting of the full committee, at which the Republican members would be present, until the entire bill was finished. There is, however, a difference of opinion on this point, and this policy may be changed.

Reference was made in the opening prayer in the senate yesterday to the lawlessness now prevalent in the country, and the necessity for the ascendency of law and order Several bills of minor importance were passed and a resolution offered by Mr. Peffer looking to the government control of railways and coal mines and the adoption of the single tax doctrine went over. The naval appropriation bill was passed with several amendments after a lively debate over the clause in the bill relating to the appointment of naval cadets at large, which Mr. Allen said would produce a naval aristocracy, but nothing came of it. Mr. Blanchard made a personal explanation of his action on the final vote on the passage of the tariff bill.

Singular Escape of a Train.

CHESTER, Pa., July 10.—A north bound "Royal Blue" express train on the Baltimore and Ohio railroad ran off the tracks in this city yesterday. It traveled three blocks over the ties, and then struck a switch and ran on the tracks again. The railroad ties were cut into splinters by the train, which was running at the rate of forty miles an hour at the time. The engine was damaged and the train delayed about twenty minutes. The passengers, who included Cardinal Gibbons among their number, were uninjured.

Paying Teller Fardon's Second Trial.

TRENTON, July 10.—The second trial of Abram P. Fardon, the Paterson bank teller against whom a number of indictments have been found in the United States court for gross irregularities, took place yesterday. The specific charge on this trial was that Fardon certified a check of $802 65 when the maker had not that amount to his credit. The bank, however, did not lose anything by the transaction, as money was afterwards deposited. The case was given to the jury this morning. Fardon was acquitted at the former trial.

ROBERT BUCHANAN A BANKRUPT.

His Books Have Been Successful, but His Plays Were Uniformly Unprofitable.

Bankrupt authors are no novelty in London, but when a man like Robert Buchanan, who has been for 30 years a popular poet, for 15 years a successful novelist and for 10 years a professional playwright, becomes insolvent it causes special wonder. Mr. Buchanan is an unusually gifted man, and his literary work, which has been prodigious in volume and uniformly good in quality, has been quite profitable.

His plays, however, have been less successful, and his recent appearance in the bankruptcy court is probably due to ill considered dallying with the drama. Our London dispatches attribute it partly to the failure of the play "A Social Butterfly," which he wrote in collaboration with David Christie Murray, and which was lately produced at the Lon-

don Opera Comique with Mrs. Langtry in the leading part. The critics were very severe on the production, and Mr. Buchanan, in turn, was very severe on the critics, but the public would not accept the play.

Mr. Buchanan has turned out a large number of plays during the past 10 years, and most of them have been failures, partial or complete. He has scored a few successes, however, notably "Alone In London," a melodrama well known in this country, and "Sophia," a play founded on Fielding's "Tom Jones," which ran for several hundred nights at the Vaudeville.

Robert William Buchanan was born in Staffordshire, England, in August, 1841. His father was first a socialist missionary and afterward proprietor of a newspaper in Glasgow. Robert was educated at the high school of Glasgow and Glasgow university and in his father's newspaper office. In 1861 he went to London and secured employment on the newspapers, and his pen has been busy ever since. His first volume of poems, "Undertones," appeared in 1860 and was followed by others in rapid succession, which soon established his reputation as "one of the minor choristers of Victorian song." His first novel, "The Shadow of the Sword," appeared in 1876, and the list of stories which followed it is too long to here enumerate.

It is safe to predict that Mr. Buchanan's financial difficulties will not interrupt his literary activity, for his pen is as versatile and his mind as vigorous as ever, and his is a spirit that cannot be conquered by adversity.

THE NAVAL WAR COLLEGE.

Lectures For Young Naval Officers In the New Building on Coasters' Island.

Up to a few days ago the United States Naval War college at Newport was an institution that had very little to recommend it except a resonant name and a lofty and useful purpose. For the past two years a number of desultory lectures have been delivered at Coasters' island in the old asylum originally built as a home for the poor of Newport. The war college languished for lack of the sinews of war until congress realized the necessity for a new building and appropriated $100,000 for the purpose. The structure which was recently opened with imposing ceremonies is the result. The summer session of the school has already commenced in the new home, and results of much practical benefit to our naval officers may be hoped for. Speaking of the purposes of the institution, Admiral Stephen B. Luce says:

[illegible] for officers of mature years, it presupposes on the part of those who attend its courses a knowledge of the duties, such as is furnished by the Naval academy, and the ex-

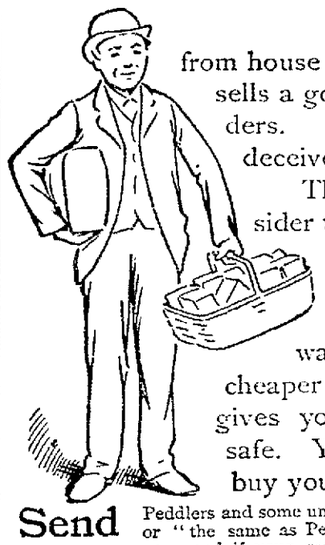
[illegible] of all the professional acquired by men of active service in the navy. With such a foundation those who seek to explore its advanced courses are led to take up military and naval history and tactics, and wars are laid down by the best authorities on international law. The study of naval warfare, strategy, grand tactics, minor tactics, logistics and those branches of international law which enter the domain of statesmanship. In a comprehensive scheme of studies and lectures [illegible] like it to the military staff colleges of Europe. In fact, it might be called a naval staff college. A naval staff, using the term in its military sense, has become a recognized necessity of a modern navy.

The new building is situated near the old college. It is of gray Fall River granite roughly finished and is rectangular in form, with a front of 210 feet by 48 feet deep. The style of architecture is Flemish in design, and the entire building is lighted by electricity and heated by steam. Between the two wings the main body will be devoted to the college proper. The western portion of the building is given up to the library. On the second floor there is a large lecture room at each end, which runs up to the roof.



Peddling

from house to house, with "prizes" thrown in, sells a good many pretty poor washing-powders. Don't let these worthless prizes deceive you.

They don't amount to anything. Consider their value if you bought them in the regular way, and compare this with the value of ruined linens, paints, etc., that you risk with these washing-powders. There's nothing cheaper to wash with than Pearline. That gives you easy washing that is absolutely safe. You would better use Pearline, and buy your own prizes. You'd save money.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 420 JAMES PYLE, New York

"America's Greatest Men and Women."

AMERICA'S GREATEST MEN AND WOMEN.

AMERICA'S GREATEST MEN AND WOMEN.

MR. WILSON TALKS.

My Name is Wilson; I do an insurance business on LaSalle street, in Chicago Ill., and I live in Evanston, Ill. Evanston is what was originally a scattering population on a pretty point on Lake Michigan, esteemed years ago far from the city of Chicago, but now one of the varied towns which may go within it by vote of the population.

I am married and have a wife and one child. That child is a boy (I suppose I should feel the same solicitude if it was a girl), and I have a father's natural fancies as to what must be the best thing to give that child the right kind of intelligence, and so divert his course that he may succeed in life. I have studied a great deal upon the subject. My own experience would not be of great value, because I have succeeded only to the limit of the average man and am barely established; still, I own the house and lot upon which I live, and am feeling perfectly safe in meeting the exigencies of the year. I want the boy to take a broader view than I did, to be a bigger man in the world. I have studied how to teach him to do that, and he has done pretty well, as far as the preliminaries go. Now, I have thought over what I should say to him and have sometimes been puzzled. I could not very well tell him what to do. I wanted to tell him what I needed but what I did not learn myself when I was of his age, and what my father did not know how to tell me, or else was not thoughtful enough to do so. I wanted to tell him how to follow the example of those who have succeeded at the present time and under the circumstances which ordinarily affect a young man struggling in this Republic established on this comparatively new world to-day. I wanted to tell him just what he had better do to get along well, and to point out to him what had been done by the people who were successful at the present time.

Of course, the record of the people of any time past would not be of so much value, because circumstances must necessarily have been different when they were alive. I feel confident, though, that if I could learn, some way and somehow, what the people who are so successful to day have done and how they did it, I could give to my boy such advice as would make his own life at least as far removed from failure as justified by the natural ability he may possess.

I looked around for some authority which I might consult in order to give him the facts most essential with this idea of mine in mind, but I could find none until I discovered that a great publishing firm in Chicago had decided to bring out a book giving the photographs of all the people who are prominent in America to-day. Here was what I wanted. The book, as I have learned, is going to be published in 16 parts, 16 pages to each, with a recent photograph on each page of some active leading American man or woman of to-day, while underneath appears the story of that same person's life—the story telling what that person did, and how the ends attained were eventually accomplished. Here was what I wanted; here was what I needed in various ways; here was what I was certainly seeking in order to obtain the information with which to educate my boy and make him prominent in the world.

I have the first sheets of this work. It is a graphic story of America's Greatest Men and Women, told in each instance on a single page underneath a photograph of recent date, which conveys to the eye an idea of what that person is. To me the photograph tells even more than the suggestive record beneath; and yet it is odd how in each instance the correct story corresponds with the expression upon the face which is reproduced in the portrait above. I do not know how the series will end. I know very little about this new feature of the newspaper people; I know nothing about the publishers and their expectations, but I do know this: that if the series so begun should be continued to its practical, ordinary good sense end—and I don't care whether that will include 200 or 700 of America's Greatest Men and Women, which is the title of the book—I do know this, that for the ordinary, active and alert business man—I will certainly say far more for the student or the literary man, or the politician or the statesman—for all these I will say it will be simply the most valuable and the most remarkable book produced in modern history. The wonder is that some one has not thought of it before. Yet no one seems to have done so since the days of Plutarch. Plutarch knew something. That shrewd old fellow knew that all who would get out of the drift, all who would accomplish great things, wanted to know every detail of the lives of those who had better luck or more courage or a broader brain than their fellows; but I am no authority on these points. I only know that there is produced a second Plutarch's Lives, that its biographies are shrewd, graphic and curt, and written without bias and without prejudice. I only know that there was a Plutarch—God bless the old fellow—and that there is this modern work.

This is the work I am going to give to my boy. I am going to make him read it thoroughly. The work is announced as consisting of 16 Parts, with 16 pages and 16 photographs in each part, and when bound, the whole series will make a great volume of 256 pages, the like of which has never been equaled. It is the story of the personal character of the men and women who are making the nation's history at this particular time. What a work this is! Do you imagine that I would miss it for my boy, or, incidentally, for myself?

You Can Get This Work Only Through the Daily Argus and Mercury.

HERE ARE the TERMS.

IN EVERY ISSUE OF THE ARGUS AND MERCURY will appear a numbered coupon. Cut this coupon out and bring or forward it, together with TEN CENTS, to the Coupon Department of the ARGUS and MERCURY and there will be delivered or mailed to you one number of the series as above. THE BLACK DEATH IN CHINA.

Fears That It Will Sweep Over Eastern Asia Before It Disappears.

"Black death," that mysterious disease which has been creating such havoc among the natives at Canton, seems destined to sweep over eastern Asia. Hong-Kong has been attacked by this insidious and fatal enemy, and already hundreds have succumbed to it. The colony is almost shut off from communication, save by telegraph, with other Asiatic ports, and every effort is being made to check the spread of the plague. Strict quarantine regulations have been made, and outgoing steamers on oriental lines carry neither freight nor passengers.

But the germs of the disease seem to be in the air, for latest news is that deaths by the plague have already occurred in Japan. The natives are panic stricken.

The plague made its appearance in Hong-Kong about May 10, when many dead rats were found in the streets. This is the first sign the disease makes. Usually other animals are stricken before human beings are affected. The spread of the disease was most rapid. In a few days the victims claimed numbered nearly 50 daily. It was even more fatal there than in Canton, fully 60 per cent of those seized dying in about 48 hours.

One cause that led to this result was that there had been no rainfall for a long period, and all streams and sources of drainage were foul. Vigorous steps were taken to secure artificial flushing of all drains, and a thorough cleansing of the entire city was had, but there was no decrease until about the 20th, when several heavy rain storms occurred.

Health officers made a house to house canvass of the district of the city where the disease seemed to center, and all sick persons were removed to the Hygeia, the hospital ship in the harbor. The dead were taken in charge by the same officials and buried at once in a place especially selected.

When the disease was at its worst, the deaths in the hospitals numbered about 30 daily. In some cases whole families were exterminated in a few days. Europeans seem to be almost proof against the disease, although in some cases their surroundings were the same as those of the Chinese. An exception to this is the death of several Portuguese in Hong-Kong.

The cause of the strange malady is a mystery, but it is undoubtedly a filth disease. A physician who had large experience with the black plague in Pakhoi some years ago said in an interview that it was due to foul smells. The plague's symptoms, as described already, are as follows: With or without premonitory warning in the shape of chill there is a sudden fever rising to 105 degrees or over. There is much headache and cerebral disturbance, accompanied by stupor. In from 12 to 24 hours a glandular swelling occurs in the neck, armpit or groin, rapidly enlarging to the size of a fowl's egg. It is hard and exceedingly tender. With or without a decline of the fever the patient sinks deeper into a condition of coma and dies usually at the end of 48 hours or sooner. He declared that animals were affected first, because the germs were near the ground.

Native reports from Canton say that the epidemic is somewhat decreasing there, but many new cases are still reported. It is said that fish are also stricken, and fishermen in some districts have been forced to cease operations.—San Francisco Chronicle.

HOT DAY HINTS.

Suggestions For Those Who Become Warm and Weary at This Season.

When tired, warm and weary after a day's outing, do not plunge the face in cold water expecting to be refreshed, or you will be more than disappointed. After the first cooling contact with the water the flesh will smart and burn more uncomfortably than ever. Instead of soothing the overheated skin cold water acts as an irritant, whereas tepid or hot water produces a contrary and desirable effect. After removing the dust and cleansing the pores thoroughly a buttermilk rub will heal, whiten and keep the skin tissues in a healthy condition.

The sun glaring on hot brick and mortar and hot, dusty pavements is very hard on the eyes. Bathing the eyes in tepid rainwater and epsom salts or diluted extract of witch hazel will allay inflammation and rest them wonderfully. A linen cloth moistened in either of these lotions and laid upon the eyes while taking a short siesta will give relief and induce nature's doctor, "balmy sleep," to woo the weary brain and tired eyes in restful repose. The same result is claimed by using crushed plantain leaves in a similar manner.

The clammy moisture so annoying may be alleviated by dropping a half teaspoonful of dissolved alum in the water or a few drops of sulphuric acid to render it sour. Lemon juice is also very excellent, removing stains and discolorations as well, and frequent use, with an occasional application of glycerin and rosewater mixed, gives a velvety whiteness to the skin.—Philadelphia Times.

The International Boat Race.

Why should Yale college send a crew to Oxford this year or any other year? Such international racing as there has been hitherto has taken place on the Thames. It is the Englishmen's turn to come to America. And they would come fast enough if they wanted to—if, in other words, they valued the trophies to be won on this side of the Atlantic. They do not, nor care a fig for victory or defeat at the hands of any American collegians, nor know whether Yale college is in California or the state of New Haven. Which facts ought to deter any self respecting American collegians from seeking the sort of recognition in England that some Yalensians seem to desire so ardently. Anglomania and honest sport are queer bedfellows.—Chicago Times.

A "RUN DOWN"

and "used-up" feeling is the first warning that your liver isn't doing its work. With a torpid liver and the impure blood that follows it, you're an easy prey to all sorts of ailments. Dr. Pierce's Golden Medical Discovery cures every one of them.

PIERCE Guarantees a **CURE.**

MRS. BRANSFORD.

I can truthfully say that I believe your Golden Medical Discovery saved my life. When I began your treatment two years ago, I had been given up by the Doctor, and my friends and lost all hope of my recovery. I had suffered for years with torpid liver; I had chronic pleurisy and catarrh in a very bad form. Attended with hemorrhages—was confined to my bed two months. In a few days after beginning your medicine I could perceive a slight change for the better; in three months I felt almost like a new person. Yours very gratefully,

Smith, of New York city, the evangelist who preached and aroused such a spiritual feeling in our churches last winter. Nearly every one of them will be glad to learn that they may have another chance to hear him, as he is to occupy the pulpit in the Brick Church next Sunday, July 15th, both morning and evening. Rev. Adventists Go to Unionville—A Busy Time with Farmers—The Prospects for Good Crops Excellent—A Quilt of Many Pieces—Other News Items.

Correspondence ARGUS and MERCURY.

—Elder H. G Thurston, the Seventh Day Adventist, who has preached in this place for several weeks past, has moved with his family to Unionville, and will expound his doctrines to the people of that place. He s an eloq uent preacher.

—It is busy times with the farmers now. Most of them are in the midst of their haying. The hay crop is good and fully up to the average. Mr. D. H. Eaton has a ten-acre field of timothy near his residence that is hard to beat. It looks as if the crop would yield three tons of hay to the acre. There are also many fine fields of rye, and not in many years has the rye crop given better promise. The outlook for corn is also good.

—The steam whistle attached to the steel letter factory in this place, when blown, has a peculiar musical tone, similar to that made by a calliope. It can be heard a long distance.

—I was shown, the other day, by Mrs. D. H. Eaton, a bed quilt which is a very elaborate piece of workmanship. The ingenuity and patience which she displayed in making it in such artistic style is remarkable. To see it is only to admire its beauty.

—Our enterprising neighbor, D. H. Eaton, who is yet confined to his room from the effects of an attack of paralysis, received, some weeks ago, is now slowly gaining in strength and he hopes under the skillful treatment of Dr. Myers, to soon be able to be about again.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middletown, on

Tuesday, July 24th,

one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor will visit Middletown one day each month Office hours from 10 a. m. to 6 p. m.

Mutinous Convicts Overawed.

BOSTON, July 10.—The prisoners in the house of correction at South Boston mutinied yesterday and refused to work, threatening the lives of the officers. In a few moments all the shops were in a state of tumult. The officers drew their clubs and charged on the prisoners. The men resisted, and attacked the officers with their tools, stools and anything they could lay their hands on. The officers finally drew their revolvers and fired several shots at the convicts. One shot struck a convict in the cheek and effectually frightened the mutineers.

RAIL ROBBERIES IN ITALY.

A Revival of the Outrages Which Were Suppressed Three Years Ago.

Three years ago the Italian government, yielding to urgent representations from nearly every country in Europe, made a vigorous effort to stop the systematic robberies on railroads, which had attained the dimensions of a national scandal. The depredations were traced to an organized gang composed mainly of railroad servants well equipped with false keys of every known pattern. The robbers were duly tried and sentenced. For a couple of years after that travelers were able to move about Italy with no more than normal risks, but last autumn the systematic thefts of baggage in transit recommenced and have now reached a scale equal to that of 1890-1.

The members of the new gang are carrying on their operations in the most impudent manner. Trunks are opened en route, rifled of their more valuable contents and carefully relocked. Occasionally they are taken out of the cars at intermediate stations in order that they may be examined at greater leisure by the confederates. Until recently the thieves had kept their felonious hands off the mails, but they are now stealing registered letters by wholesale, and this daring development will probably prove to be their undoing, for complaints are pouring into Rome from foreign post-offices, and the government is bound to take effective action.—Rome Letter.

THE CABLE SPOOK.

An Uncanny Thing Bestrides the Slot Before Chicago Street Cars.

Whether it is a spook or not, it is bothering the brains of the west side cable car conductors and gripmen and is causing all kinds of guesses on the part of the passengers who travel nightly on the Milwaukee avenue and Madison street cable cars.

It looks like a wolf, but it may be an ordinary dog—that is, ordinary in all respects save in appearance.

Two members of the University club were sauntering along Washington street, between Dearborn and Clark streets, a week ago last night. A west bound Madison street cable car was standing opposite the Title and Trust building. The gripman looked as if he was in a trance. The conductor was helpless and evidently speechless. In the center of the street stood something that looked like a wolf. It was not howling and was not wild looking. It was simply standing over the cable slot in what, in the case of a man, would have been called a reflective mood.

Some of the women on the front seats jumped off. When they saw how mild and harmless the object over the slot looked, they returned to their seats. The conductor at last regained his courage and tugged twice at the bellrope. The gripman obeyed, the car moved on, and the passengers leaned over the sides (they were summer cars), anxious for the fate of the dog, wolf, spook or whatever it may have been. It did not snarl and jump on the front seat. It quietly moved away, went over to the sidewalk and waited—waited just long enough to have the train pass—then it returned to the slot, resumed its air of reflection and stood still. Another train of cars came along. The same programme was gone through.

And so it went all that Sunday evening. The following day every gripman and conductor in the west side cable service was talking about the thing in front of the Title and Trust building. They were on the watch for it Monday night. It did not appear. But on Tuesday evening, about 8 o'clock, it appeared again and went through the same performance as on Sunday evening, disappearing about midnight. It was seen again Wednesday and Friday, and last night at 9 o'clock it resumed its place.

Cable car men are superstitious as much as sailors. They do not like that thing that stands over the slot on Washington street. Some of them say that it is the ghost of some poor creature "killed by the cable."—Chicago Herald.

TUESDAY, JULY 10, 1894.

While it is undoubtedly true that the hearty sympathies of many members of the older railway organizations are with Debs and the Railway Union in the present strike, the heads of those organizations do not hesitate to condemn the strike. Chief Arthur of the Brotherhood of Engineers says it is without good cause and Chief Wilkinson of the Trainmen's Brotherhood expresses the same opinion. The Chief of the Order of Railway Conductors also disapproves of the strike.

Had the strike fever not been in the air the Chicago labor organizations, instead of voting to go on strike in order to show their sympathy for the Railway Union strikers, would have continued at work and shown their sympathy in the more prosaic, but infinitely more practical form of contributions from their wages. The Railway Union has no strike fund and, without outside contributions, many strikers will soon be in need of money, and when hunger knocks at the doors of their homes the sympathies of all railroad men will be turned from the Pullman strikers to their own suffering families.

President Cleveland, yesterday, issued a second proclamation, addressed to all persons who are obstructing the operation of military roads and post routes and preventing the transportation of mails in the states of North Dakota, Montana, Idaho, Washington, Wyoming, Colorado and California, and the territories of Utah and New Mexico. All persons engaged in or in any way connected with unlawful obstructions, combinations and assemblages, are ordered to disperse and return peacably to their respective abodes on or before 3 o'clock on the afternoon of July 10th.

The Democratic members of the conference committee have decided to come to an agreement among themselves before they invite the Republican members to meet with them. The latter profess to be very indignant at the discourtesy with which they say they have been treated, but the wisdom of the Democratic policy is apparent. There are enough points of difference between the House and Senate bills to make it no easy task for the Democratic conferes to come to an agreement without the presence of such a disturbing element as Tom Reed, whose delight it would be to foment dissensions and prevent any agreement being reached.

Tariff of Wives.

In the earliest times of purchase a woman was bartered for useful goods or for services rendered to her father. In the latter way Jacob purchased Rachel and her sister Leah. This was a Beena marriage, where a man, as in Genesis, leaves his father and his mother and cleaves unto his wife, and they become one flesh or kin—the woman's. The price of a bride in British Columbia and Vancouver Island varies from £20 to £40 worth of articles. In Oregon an Indian gives for her horses, blankets or buffalo robes; in California, shell money or horses; in Africa, cattle.

A poor Damara will sell a daughter for a cow. A richer Kaffir expects from three to 20. With the Banyan, if nothing be given, her family claim her children. In Uganda, where no marriage recently existed, she may be obtained for half a dozen needles, or a coat, or a pair of shoes. An ordinary price is a box of percussion caps. In other parts a goat or a couple of buckskins will buy a girl. Passing to Asia, we find her price is sometimes 5 to 50 rubles, or at others a cartload of wood or hay. A princess may be purchased for 3,000 rubles.

In Tartary a woman can be obtained for a few pounds of butter, or where a rich man gives 20 small oxen a poor man may succeed with a pig. In Fiji her equivalent is a whale's tooth or a musket. These and similar prices elsewhere are eloquent testimony to the little value a savage sets on his wife. Her charms vanish with her girlhood. She is usually married while a child, and through her cruel slavery and bitter life she often becomes old and repulsive at 25.—Westminster Review.

Scrofula Humor on the Head Cured by Hood's Sarsaparilla.

Carrie Cecilia Topping
Montrose, New York.

"C. I. Hood & Co., Lowell, Mass.:
"Dear Sirs—Why should we hesitate to approve an article of merit and worth? We use Hood's Sarsaparilla for our family medicine and also Hood's Pills. My little girl, 10 years old, had three sores covering the whole back part of her head, running down to the back of her neck.

It Was Dreadful

to look at and the discharge very offensive. She came home one day with an advertisement of Hood's Sarsaparilla in her hands and said: 'Mamma, get me a bottle!' I did not think much of it at the time, but I got a bottle and

Hood's Sarsaparilla Cures

gave her and used Hood's Olive Ointment for outward application on the sores. I was surprised at the effect. In a little while her head began to get better, and now it is just as well and smooth as before she had the sores." MRS FANNIE A. TOPPING, Montrose, New York.

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

COURT PROCEEDINGS.

Judge Cullen's Special Term—Middletown Dentists at Law over Hypodontine—Prisoners Sentenced—Minnie Lybolt's Bail Fixed.

GOSHEN, July 10.—At the adjournment of the June Circuit Judge Cullen appointed a special term to be held here to day.

By consent of counsel the Court directed judgment against William Whittaker in the case of Floyd S. Goble & Brother against him to enforce a mechanic lien.

Mr. Hulse, appearing for Dr. A. W. Sweezy, a Middletown dentist, who puts up a local anæsthetic called hypodontine, moved for an injunction to restrain Dr. H. C. McBrair, also of Middletown, from using and advertising the preparation. Mr. Vanamee appeared for Dr. McBrair. The court reserved its decision, though the Judge seemed to take a view of the case favorable to Dr. McBrair.

William Winfield and Edward Foster, who pleaded guilty at last term of court to rape and burglary, respectively, were sentenced. Winfield was sentenced to Albany for one year. His crime was committed at Port Jervis. Foster was sentenced to Sing Sing for two years. His crime was committed at Newburgh.

Wilton Bennett, Esq., made application for bail for Minnie Lybolt, indicted for bigamy. The court fixed bail at $1,000.

The suit of the Paterson Consolidated Brewing Co. vs. G. M. Crawford to recover $225 for rent, was tried, resulting in a verdict for defendant without costs.

Court adjourned until July 25th.

A CAPTURED THIEF ESCAPES.

Stole a Watch Thursday, Arrested Friday, Held for the Grand Jury Saturday and Then Escapes from the Officer.

A young man about twenty-four years old stole a watch from the pocket of the vest of John Kepler, which had been left hanging in the barroom of the hotel at Narrowsburgh, Thursday. Friday night the thief was arrested at Eldred by Constable Dexter. Saturday morning he was arraigned before Justice Maybee and held for the Grand Jury.

The constable left the prisoner in charge of the Justice at Engleman's hotel while he changed his clothes. In a few minutes he asked permission to go to the closet and the hand cuffs were removed.

A few minutes later he was seen running over the top of a hill a quarter of a mile away, and has not since been heard from. He gave the name of Charles Green.

A HORSE THIEF CAPTURED.

A Callicoon Depot Man Recovers His Property After a Long Chase.

A young man, giving the name of Alex Burton, hired a team at the Delaware House in Callicoon Depot, Sunday morning, to drive to Abrahamville, Pa., four miles distant, to get his girl. Hearing that Burton had driven beyond the place mentioned, the owner of the horses started in pursuit and followed him to Long Eddy, and, when near that place, met him driving at breakneck speed and captured him and recovered the team. Burton had been inquiring the road to Newburgh.

BURGLARS AT WASHINGTONVILLE

They Steal a Type Writer and a Lot of Barber Tools and Escape in a Stolen Rig Which Was Recovered at Monroe.

The horse and wagon stolen from Washingtonville, Sunday night, were found under a shed at Monroe, yesterday morning. Three strange men were seen to board an early train for New York. The men were doubtless burglars who, after making a raid, took the horse and wagon to drive to the railroad.

While in Washingtonville the men stole a type writer from the office of the Emerson Wine Co. and twenty-two razors, five pairs of clippers and four pairs of scissors from Phillip Schneider's barber shop.

THIRSTY BURGLARS.

They Enter a Cellar and Help Themselves to Beer.

This morning when Mr. Max Katzinger went into the cellar of his residence, he discovered that some one had been there before him—probably during the night, having entered through a window.

The thieves were thirsty thieves for all they took was beer and syrup, which they doubtless supposed to be malt liquor as it was in beer bottles and of about the same color.

The necks of five bottles of beer had been broken and the contents drank. Several bottles of syrup were also broken. Mr. Katzinger had some wine in the cellar, but this seems to have escaped the notice of the thieves.

Mr. Katzinger says he hopes the burglars will return as he will give them a warm welcome with a shotgun, which he will keep ready for use.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every other remedy failed.

A MOST DISTRESSING ACCIDENT.

A Young Man Loses an Arm, as a Result of the Accidental Discharge of a Shotgun.

Richard Cochran, the sixteen-year-old son of Mr. Robert Cochran, of the Morgans & Wilcox Mfg. Company, of this city, was shot and dangerously wounded, about 10 o'clock, last night, by the accidental discharge of a shotgun, while camping on the Shawangunk Mountains near Otisville.

The boy reached for the gun, which was in the hands of a companion, named Lee and while holding the barrel and drawing it toward him the hammer caught on something and the gun was discharged.

The entire charge of shot entered his left arm between the elbow and shoulder, shattering the bone and tearing the muscles and arteries of the arm in a shocking manner.

The boy was driven to Otisville at once, and Dr. Writer was summoned. He partially dressed the injuries, and the wounded lad was brought to this city and taken to Thrall Hospital. Drs. Mills, Douglas and Purdy were summoned, and at once decided that amputation was necessary, and accordingly the arm was taken off at the shoulder joint.

He was afterwards removed to his home on West Main street.

AN O. AND W. WRECK.

A Broken Drawhead Derails Six Cars One Thrown Into the River.

There was quite a serious freight wreck at Hell Hole about three and one-half miles north of Cooks Falls, on the O. and W. road, at 10 a. m., yesterday.

A drawhead on a car of Conductor Wells's northbound train, No. 37, pulled out and falling upon the ground caused the dersilment of six cars, one of which toppled over and rolled into the river, the other five being thrown across the track.

The wreckers from this city were sent out and cleared the track in a few hours, causing but little delay in the movement of trains.

Very fortunately none of the trainmen were on the wrecked cars at the time of the accident.

ELECTRIC RAILWAY MATTERS

Building the Track on Railroad Avenue to Sprague Avenue—Row Boats for the Wallkill—Work on the Pavilion and Midway Park Depot.

The Traction Co., this morning, began to lay its tracks through Railroad avenue from East Main street to Sprague avenue and to put in the turns at the Sprague avenue bridge and East Main street.

Another gang of men is setting the poles on the line to Midway Park; another is at work on the track through the park and other men are at work grading walks and drives in the park.

The frame of the dancing pavilion is up and the roof is being put on to day.

Work was also commenced on the depot which is located at the end of the bridge in the park.

Five row boats for use on the river arrived at the Mechanictown depot this morning and will be transported to the park to-day.

MRS. STARK'S EIGHTY-FIFTH BIRTHDAY.

Four Generations Celebrate It by a Ride on the Electric Cars.

To-day was the eighty-fifth birthday of Mrs. Emeline Stark, mother of Mrs. Chester Belding. She is in the full enjoyment of all her mental powers and of an unusual degree of physical strength, and it was decided to celebrate the day by a family ride on the electric cars. There were four generations in the party, Mrs. Stark, Mrs. Belding, Mr. George S. Belding and his child. This was not Mrs. Stark's first ride on the electric cars, she having ridden on them at Old Point Comfort, last fall, when she went South with Mr. and Mrs. Belding for the winter.

John Hendre, a brakeman on the N. Y., S. and W. road, had the middle finger of his right hand crushed while making a coupling at East Main street, yesterday. A STRANGE CASE.

How an Enemy was Foiled.

The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that existed in my arms, hands and legs. I had to rub and beat those parts until they were sore, to overcome in a measure the dead feeling that had taken possession of them. In addition, I had a strange weakness in my back and bound my waist, together with an indescribable "gone" feeling in my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there is no relief. Once it fastens upon a person, they say, it continues its insidious progress until it reaches a vital point and the sufferer dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit, when I saw an advertisement of Dr Miles' Restorative Nervine, procured a bottle and began using it. Marvelous as it may seem, but a few days had passed before every bit of that creepy feeling had left me, and there has not been even the slightest indication of its return. I now feel as well as I ever did, and have gained ten pounds in weight, though I had run down from 170 to 135. Four others have used Dr. Miles' Restorative Nervine on my recommendation, and it has been as satisfactory in their cases as in mine."—James Kane, La Rue, O.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is free from opiates or dangerous drugs.

LIGHTNING RODS DUSTED.

A Connecticut Agent Says the Barbed Wire Fence Has Done the Trick.

An Ansonia lightning rod agent has returned from Barber Hill, a little hamlet several miles up the Naugatuck valley, in a most dejected mood. He had heard of a recent thunderstorm up there where considerable damage had been done by lightning, and priming himself with the alleged facts he drove off with his wagon loaded with rods, copper tips, insulators, ladders, etc., expecting to find business brisk. He found at the first place where he stopped that it was going to be a bad year for business in that section, because at nearly every house there were barbed wire fences, and the last storm had proved that there were no better conductors of electricity that a barbed wire fence.

The storm the agent heard of came up suddenly one evening, and its antics convinced him that he had better get out of the lightning rod business and go into the wire fence trade. The very first flash of lightning struck a tree at the southwest corner of the house occupied by Mrs. Willard Woodruff and her son-in-law, J. A. Hitchcock. The force of the concussion threw Mr. Hitchcock from his chair across the room and up against a sideboard. The bolt struck the tree about 20 feet from the ground and on the side toward the house, but a greater attraction was across the street, and the lightning went for it with considerable eagerness. It ricochetted over the intervening space, gouging big holes in the ground at intervals of several feet and throwing stones weighing several pounds about as though it were trying to drive chickens out of the flower bed. Its last leap was over a space of 20 feet, where it found what it was after.

As the electric ball struck the barbed wire fence it divided into two parts. One went north on the top wire and the other south on the lower wire. The north bound ball followed the wire for 100 feet to an open gate, splitting all the posts. Then it jumped to the roadway, tearing up the earth at every bound until it covered the gap made by the gate. It jumped back to the top wire for 200 feet more to the end of the section, throwing the last post flat on the ground and pitching into the earth, where it cut a V shaped hole three feet wide at the widest part.

After the shock those in the Woodruff house began to look about them. They found every pane of glass in the south side of the house but two broken. Every piece of crockery in the pantry had been displaced, some of it toppling off the shelves to the floor, but very little of it was broken. They believe, and so do their neighbors, that the barbed wire fence was their salvation, and if the electric bolt had not been drawn across the street the house would have been torn down.

The Ansonia lightning rod agent said he was forced to believe the same thing, for it was an awful bolt.—Ansonia (Conn.) Dispatch.

WORSE THAN TIP.

Bolivar's Keeper Says He Is Nearly Twice as Big and Much More Vicious.

The recent execution of the elephant Tip by poison in Central park, New York, caused the big crowd which visited the "zoo" yesterday to view with more than ordinary interest the three huge elephants confined there. Few among the spectators knew, however, that in the enormous Bolivar they saw an animal said by experts to be more ferocious than Tip ever was. Bolivar seemed to be in a particularly ugly mood and swayed his great body from side to side, straining constantly at the heavy chains which fettered him. Head Keeper Manly said:

"I think the killing of Tip was a very queer action. Of course he was ugly and would do all the damage he could at times, but most male elephants will do that. I think it is safe to say that Tip was never in the same class with Bolivar as a terror, but we would not think of killing the old fellow any more than we would of killing an angry lion or tiger. The people want to see wild animals, and the men who handle them should know their moods well enough to keep out of their way when they are dangerous.

"Bolivar has a most unenviable record, and he would probably not be here now if he had not got so vicious that he could not be handled by the circus men while traveling. He has, I think, killed three men outright and has injured many more. He weighs over seven tons and is nearly twice as large and powerful as Tip was. He is a terror when once started.

"He once nearly ended the life of young Adam Forepaugh. Bolivar had knocked him down and was preparing to crush his life out when Fred Johnson, his keeper, drove the big beast away. But here his disposition has improved, and we do not have any trouble with him. Keeper Harrison knows his disposition and simply treats him kindly. We are mighty careful, however, not to give the old fellow any chances to do harm, and he is never freed from his chain."—Philadelphia Record.

Repairing the Cable.

The cable ship Minia has started from Queenstown on the difficult enterprise of repairing one of the Anglo company's defective cables in 2,360 fathoms of water in the mid-Atlantic. The cable will have to be overhauled for several hundred miles, the defective sections cut out and new lengths spliced in. The Minia took 500 miles of new cable, half of which is expected to be used. Some people believe an entirely new cable would be found cheaper in the end.

"ADAMANT" WALL PLASTER!

The New, Cheap Substitute for Common Plaster.

It is very hard and very adhesive; it does away with the warping and shrinkage of doors and casings, and the building is not saturated with water, as it necessarily must be when common plaster is used; it costs originally but little more than lime plaster, and in the end its superior qualities make it immeasurably cheaper; it saves waiting several weeks or months for the buildings to dry out; it does not crack or fall off, even in the case of leakage; it is applied easily by any good plasterer; it is the only material with which repairing can be done neatly and "to stay."

A USEFUL MACHINE.

It Counts Two Thousand Silver Dollars a Minute in the Philadelphia Mint.

The feat of counting 2,000 silver dollars per minute is now being performed at the mint by a little machine invented by Sebastian Heines, the chief carpenter of the institution, and by its aid the work of counting the coin and weighing the silver bars can, it is thought, be completed by the middle of July. The slow progress made in counting by hand led Mr. Heines to experiment, with the result, after the expenditure of much thought and time, of turning out a very successful machine.

Mr. Morgan of Mint Director Preston's office was greatly interested in the experiments, and upon witnessing the final successful test of the invention he granted permission for its use in counting the great mass of silver dollars. The machine was put into regular operation yesterday, and when worked to its limit was easily able to dispose of two bags of coins containing $2,000 in a minute.

The machine consists of a hopper, into which the coins are dropped. A cog-wheel, the teeth of which resemble those of a circular saw, carries the coins to tubes, and from there they are forced out upon a little table containing 20 grooves, each of which holds just 50 coins. A turn of the crank counts 1,000 coins, which are immediately put into a bag, and a second thousand follows before the expiration of the minute.—Philadelphia Record.

Shelby Thought He Meant It, and the Hogs Suffered.

The following is to take the place of the George Washington hatchet story. It is sent in with the assurance that it can be authenticated if Senator Cullom denies it:

When he was a young man, before he dreamed of listening senates or looked like Lincoln, he was a farmer boy. One day in August, when the blistering heat was parching the crops, and even the dog fennel hung its head, young Cullom was on the porch of the farmhouse trying to keep cool and kill flies. The boss of the farm sat on the far end of the porch dozing. He was aroused by a passing neighbor, who called out to him that a drove of hogs had broken into the watermelon patch back of the barn. The watermelon crop was about all that was left. The old farmer had had some trouble with his hogs before, and this information aroused his religious nature and shattered it.

"Shelby!" he roared at the young man.

"Yes, sir," was the respectful reply.

"Take the shotgun and go down to that melon patch and shoot every d—d hog you find. I'm getting tired of this. They have ruined everything on the farm, and now they are into the melon patch. Hurry up."

The young man moved away, and the old man resumed his seat and again fell asleep. The city reader probably needs to be informed that in the country, where there is no such thing as cold storage, the killing of a hog in August or at any time in hot weather is like throwing away money. In those days particularly there was no way of curing pork in summer.

An hour later young Shelby returned to the house, put up the gun and resumed his place on the porch. The old man, half asleep, opened one eye on him and asked in a lazy manner:

"Well, kill 'em?"

"Killed seven, and two got away," was the equally quiet response.

"What!" shrieked the old man, jumping from his chair and standing before young Shelby in a rage. "You don't mean to tell me that you killed seven of them hogs—my Poland Chinas—this time of year when they are useless? You young saphead?"

"Yes, sir," responded young Shelby, with a meek obedience that reminds one of the Washington hatchet story; "I did as you told me, sir; only I let two get away."

The old man looked at him as he would at a curiosity. His rage quieted, and he sat down on the floor of the porch and nursed his head for some time. After awhile he called out quietly:

"Shelby M.!"

"Yes, sir," was the response.

"Come here. You say you killed seven of them shoats in the melon patch—seven—shot 'em—killed 'em dead?"

"Killed 'em dead," responded Shelby.

The old man looked at him, took off his big straw hat, fanned himself for a moment and then said, with some solemn deliberation:

"Well, Shelby M., I wish I may be d——d if you ain't the d——dest, most obedientest, d——d obliging farmhand that I ever had around. If you keep on mindin this way, you'll be president some day."

"Thank you, sir," replied Shelby, who went in the house to hide his blushes. The old man looked after him and said to himself:

"I reckon he thinks I mean it. Still this is a —— of a country for the —— fool."—Exchange.

"There's only ceilings here," she said; "the lace is three rooms over!"

SHOTS HERE AND THERE

AN "ARGUS" MAN OFF DUTY AIMS AT SEVERAL SUBJECTS.

One Effect of the Strike—Why a King is Hard Up—Women in a Shooting Match—What a Fresh Air Girl Thought of Poughkeepsie.

Whatever may be the outcome of the railroad strike, and whatever it may or may not do, let it be recorded of it that it has accomplished the seeming impossibility of enabling the New York papers to publish pictures of the same scenes and incidents that are exactly alike. Heretofore pictures of the same persons and of the same scenes, when done by different papers, have been so unlike that no one would have supposed that they bore any relation to each other, and popular faith in the accuracy and reliability of illustrated journalism was being sorely shaken. The strike pictures in this morning's New York papers will, however, counteract any tendency towards skepticism on the part of the picture-studying public, though at the expense of faith in the "our own artist" fiction, for its dollars to doughnuts that the pictures in today's *World* and *Herald* are alike because they have been reproduced from the same Chicago paper.

The best dressed woman in the world is said to be Queen Margaret of Italy. She has a countless variety of elegant costumes and is making such constant additions to her wardrobe that she seldom wears a dress more than once. In this connection it may be of interest to mention that although King Humbert has a steady job and makes good wages he is notoriously hard up, and possibly the Queen's extravagance in dress may account for the difficulty which Italy's royal family has in paying the butcher and baker.

***

A press dispatch from Buffalo, Wyoming, tells of a "little excitement" to which the people of that town were treated, Sunday, when "Mrs. Sheriff" Angus and Mrs. Eva Bye emptied their revolvers at each other in the public street. Neither of the women was wounded, for marksmanship does not seem to have been one of their accomplishments. Strange to say none of the bystanders were hit by the stray bullets, but it is said that such a dodging into doorways and around corners was never seen there before. The cause of the shooting is said to have been a family feud. The incident suggests certain sage reflections on the effect of twenty-five years "emancipation" on Wyoming women, but I forbear. It isn't fair to charge up the misdeeds of two mussy women to the account of all the women of Wyoming.

***

A large party of Fresh Air Fund girls is being entertained in Poughkeepsie, in a house rented for their accommodation by kind hearted ladies of that city. The children say and do many things that surprise their hosts and the ladies have not yet recovered from the shock they received, Saturday, when they heard one of the little girls calling out to a Poughkeepsie boy: "Say, how'd you do? This Poughkeepsie is ever'n ever so much nicer than New York; first off I didn't want to come cause I thought it a 'bum' town, but I'm glad that I comed now."

TOOK THE INDIANS' SCALPS.

The Asylums Defeat the Minneconji, 20 to 10—The Indians Play Good Ball Till the Eighth Inning—A Large Crowd Present.

The Minneconji Indian Base Ball Team which played against the Asylums on the Hospital geounds, yesterday afternoon, attracted the largest crowd of spectators that has assembled on those grounds this season.

This may possibly be accounted for from the fact that flaming posters, portraying the noble red man in his native costume, had been placed on the bill boards about town and the novelty of seeing a "big injun" cavorting around the bases unencumbered by the regulation base ball uniform, and with a crown of turkey tail feathers stuck upon his head, was more than the inborn curiosity of the average American could withstand.

Those who expected anything out of the ordinary, however, were doomed to disappointment. The Indians were neatly attired in maroon colored uniforms, with regulation caps and spiked shoes.

Even the long locks of straight black hair, one of the chief characteristics of the American Indian, were conspicuous by their absence, each brave sporting a pompadour hair cut that reflected great credit on the tonsorial artist who performed the amputation.

The Indians played very good ball for Indians, and for eight innings it was a question whether or not they might prove too strong for the nondescript aggregation which appeared under the name of the "Asylums."

Murray, Madison, McGreevy and Tierney are off on a week's tour with the Patersons. This sent Genegel behind the bat, Butts went to second, "Henny" Bradley went to short, "Bruce" Beattie to third, Farrell to left field and Degnan to right.

"Chris" Genegel caught for three innings, but apparently did not relish the job of stopping Cheseboro's swift inshoots and he retired in favor of "Bruce" Beattie, who caught the remainder of the game in first-class style.

The game, while not bristling with features, was fairly interesting and was a tie at ten to ten, when the Asylums went to bat in the last half of the eighth inning.

The home "Indians" then drew out their war clubs and pounded out ten runs before they allowed the visiting Indians to take a scalp.

This ended all uncertainty and the game was won twenty to ten.

THE EPWORTH LEAGUE.

A Movement in Behalf of Sunday Closing—Entertainment for the Y. M. C. A.

At the monthly business meeting of the Epworth League, held at St. Paul's Church, last evening, a committee was appointed to confer with similar committees from the other young people's church societies of this city, with a view to inducing the proprietors of the confectionery and cigar stores of Middletown to close their places on Sunday. The members of the committee are S. D. Hampson, Robert Lawrence and Charles J. Cooper.

The chairman of the entertainment department of the league was instructed to arrange for an entertainment to be given for the benefit of the Y. M. C. A.

Seven new members were received, and refreshments, consisting of ice cream and cake, were served free to all present.

To Camp in Sullivan County.

Messrs. Albert Evans, William Drake and C. E. Hartwell and Dr. Wm. Evans, of Johnson, went to Sullivan county, to prepare a camp on the Drake farm, near Rio. Today, they were joined by Misses Antoinette Drake, Fannie Horton, Carrie Clark, Emma Graham and Rose Lee, of Johnson and Mamie Purdy, of this city, and Charlotte McDonald, of Newark.

The ladies will lodge in a log house on the grounds and the gentlemen will occupy a tent nearby.

They expect to remain about two weeks.

PUBLIC VOICE.

Osterhout, Indicted for the Bushville Murder, Not a Typical Sullivan County Tough.

EDITORS ARGUS:—I saw in a recent issue a letter from Monticello, the writer of which stated that Osterhout and Odell are in the Sullivan county jail at Monticello awaiting trial for the Bushville murders.

I wish it understood that that correspondent has exaggerated in some of his statements.

Odell is not in jail. Your correspondent also stated that "Osterhout is a typical Sullivan county tough, a type as distinct as is his counterpart on the Bowery." Now I wish to ask that correspondent if he made those remarks from his own knowledge? Does he know Osterhout and how long has he been acquainted with him? I think he writes from mere hearsay, and has exaggerated far from the truth.

Osterhout has been in this country for twenty-three years, and has always been looked upon as an honest, hard working man.

Never before has he been charged with crime of any kind.

Osterhout is of a respectable family and has always been looked upon as a respectable law abiding citizen. The majority of the people in the neighborhood in which Osterhout lived, look upon Osterhout as as honest and law abiding as his accusers.

Music, Not Harmony—Card from the Pioneer Band.

When the City Band became a thing of the past they published in the several daily papers that they would give us their music and were accordingly looked upon as very generous and public spirited people.

The gift amounted to our receiving, about three weeks ago, through the efforts of John Gordon, three part sets of music which, however, we never have used and probably never would have used, as we have music of our own which suits the public and ourselves better.

So when the City Band upon their re organization under a new name asked for the return of the music they had so generously given us we handed it over without one twinge of regret.

As they published their generosity in giving it we publish ours in returning it. PIONEER BAND.

Y. M. C. A. Meeting in the Presbyterian Church—Elder Thurston's Adventist Meetings—A Broken Leg—New Monument New Post Office Boxes—Successful Festival.

Correspondence ARGUS and MERCURY

—Next Sunday evening, July 15th, there will be services in the Presbyterian Church at 7:30 p. m., conducted by the Young Men's Christian Association, of Middletown, N. Y. Members of the association have been in the habit of holding meetings in different places from time to time, and these meetings have proved very interesting and much good has been accomplished. They have never been so far away before and it is through the request of one of their number, a former resident of this place, that they consent to come so far, and we bespeak for them a full house. They have secured good speakers and will bring their orchestra, and some twenty young men expect to be present. Gospel hymns No. 5 will be used and they express a desire that all who can will assist in singing. There will be no services in either of the other churches, so that all may unite in this service.

—There will be preaching in the gospel tents near the bakery, at 11 a. m., Sunday 15th, and every night this week, conducted by Rev. Mr. Thurston. These meeting are largely attended.

—Rev. Mr. Kerwin, of New York city, preached in the Presbyterian Church, last Sunday morning and evening very acceptably to large congregations.

—On July 4th, Mr. VanAuken, living on the lower road, broke his leg above the ankle. He was out of his wagon, and his horses starting away, he attempted to get in, but fell, and the wheel passed over him. He now wears a plaster of Paris boot.

—Two more nice monuments have been put in place in our cemetery, one for Miss Margaret Middaugh and the other to the memory of Mr. Hiram Doty and Charles Vail and families.

—Our postmaster has added thirty-two more boxes to the post office for the accommodation of our increasing population.

—The lawn festival on the M. E. Church grounds was postponed on account of rain on the 4th, and was well attended the 5th. The financial results were satisfactory.

CLARKSON, N. Y., Nov. 1892.—"I have used Gilmore's Aromatic Wine in my family, and for a debilitated system there is nothing to equal it in restoring vigor and strength, and for female weakness it stands without a rival. NEWBURGH'S SECOND TROLLEY VICTIM.

Lionel Berge Dies of Injuries Sustained in the Newburgh Accident

Lionel Berge, of New York, who was injured in the electric railroad accident in Newburgh, July 4th, died, yesterday morning, from the effects of his hurts. He was a nephew of Mrs. Pauline Moses, of Newburgh, who was killed in the accident.

When the injured were taken to the hospital it was thought all except Mrs. Moses would recover, but on a closer examination a depression was found in Berge's skull, and when this was raised a blood clot was found. Sunday he lapsed into a comatose state, and remained so until his death.
